

devicepro

Did you know that up to 80% of all IT security violations and up to 70% of all data theft happens in-house!

devicepro 2008 will guarantee you, that...

- no one can bypass your firewall and walk out with company information on a USB-stick or an external hard disc.
- no one will endanger your company by bringing in Viruses or Trojans on external devices like USB-sticks.
- only authorized storage media that comply with company policies can be used.
- only specifically authorized employees will be able to use external devices.
